

Dasha Deriagina

UX/UI Designer & Web Developer

📍 Windsor, ON (Ready to relocate ASAP) | 🌐 thedash.dev@gmail.com | 📁 dash-dev.net

I'm a UX/UI & Web Developer who creates websites that not only look good — they feel intuitive and refined. With a background in photography, I approach design with emotion, structure, and story. I build everything from scratch — and I mean everything: **from Figma to fully responsive, pixel-perfect** code in HTML, CSS, JavaScript, Bootstrap, and WordPress. I care deeply about details, but even more about how people experience what I create.

📁 Experience

Sep 2023 – Present

UX/UI Designer & Front-End Developer | Freelance

Remote (Canada-based, worked with clients in USA & China)

- Design and develop responsive websites using Figma, HTML, CSS, JavaScript, and Bootstrap
- Build landing pages, design systems, and branded user interfaces for small business clients
- Collaborate directly with clients from idea to launch, offering both design and coding support
- Build custom WordPress themes from scratch, using Advanced Custom Fields (ACF) for client-editable content
- Integrate Google Analytics, SEO tags, and custom page templates
- Migrate static HTML/CSS projects into dynamic WordPress themes for easier content management — including live examples like the custom "Link in Bio" page built with ACF
- Known for clear communication, fast turnarounds, and creative attention to detail

Sep 2024 – Present

Product Designer | Google Developer Group Windsor

Part-time | Remote

- Designed and developed the official website for DevFest Windsor 2024 — from layout to launch
- Currently leading the redesign for DevFest Windsor 2025, focusing on accessibility and user experience
- Serve as a speaker and Figma mentor in community workshops, helping junior designers learn design tools and workflow
- Collaborate closely with developers and organizers to ensure strong visual identity and event clarity across platforms

Jan 2025 – Present

Head Administrator | Little Kickers Windsor-Essex

Part-time | Remote

- Manage class registrations, schedules, waitlists, and parent communications
 - Work within Salesforce-based registration and communication system to track client activity and payments
 - Developed strong organizational, problem-solving, and client communication skills
- This role strengthened my ability to manage fast-paced operations and work closely with diverse stakeholders — skills I now bring into my design and development work.*

🔧 Technical Skills

- **Design:** Figma, FigJam, Adobe Photoshop
- **Front-End:** HTML, CSS, Bootstrap, JavaScript, PHP
- **CMS:** WordPress (Custom Themes, ACF, Templates)
- **Analytics & SEO:** Google Analytics setup, meta tags, Open Graph
- **Tools:** GitHub, VS Code, Git, Google Fonts, Canva
